Adarsh Kumar

AI DEVELOPER & ML ENGINEER · PRODUCT DESIGNER

Delhi, India — working worldwide devadarshukumar@gmail.com github.com/Adarshukumar
linkedin.com/in/adarshu07 huggingface.co/AdarshJi

PROFILE

Freelance developer since January 2024, building AI products and design-led websites. I work across the whole stack — Python and FastAPI services wrapping models, RAG pipelines and streaming chat backends, and React/TypeScript interfaces with motion treated as part of the engineering. 15+ AI tools shipped publicly on Hugging Face Spaces. B.Com (Hons), University of Delhi — commerce by training, self-taught in code.

EXPERIENCE

AI Developer & ML Engineer — Independent

2025 – Present · Hugging Face, remote

- Shipped 15+ live AI tools on Hugging Face Spaces: image generation, text-to-speech, automation utilities and RAG chat.
- Built a 48-model chat router — an OpenAI-compatible FastAPI gateway that routes a single request to any of 48 models and streams tokens over Server-Sent Events.
- Built a Dockerised image-serving API that implements the Hugging Face inference contract, so existing HF-compatible tooling works unchanged.
- Wrote RAG backends for real users: retrieval, chunking and evaluation tuned for latency on small instances.

Freelance Web Developer — Self-employed

Jan 2024 – Present · Delhi, India

- Design and ship landing pages and small-business sites in React, TypeScript, HTML/CSS and WordPress — 10+ client projects.
- Own the whole delivery: design, build, deployment and the handover that lets the client keep editing.
- Produce video edits, reels and promos, plus small automations, for creators and small businesses.

SELECTED WORK

48-Model Chat Router

FastAPI · LangChain · SSE — one endpoint, 48 models, streamed responses. Publicly usable on Hugging Face.

Gallery Server

Docker · FastAPI · Python — an image API that speaks the Hugging Face contract.

Aduwebs — personal portfolio

SKILLS

Python · FastAPI · LangChain · RAG · Hugging Face · Gradio · Diffusers · Docker · React · TypeScript · JavaScript · Node.js · REST APIs · Tailwind · Vite · GSAP · MongoDB · Git · Vercel · WordPress

FOCUS

- LLM application engineering
- Retrieval-augmented generation
- Autonomous agents
- API & backend design
- Interface & motion design

EDUCATION

B.Com (Hons)

Dyal Singh College, University of Delhi · 2024
